

## Blended Learning Options

Differing learning styles, training goals, student locations, and budgets often require a combination of instructor-led and self-paced learning. The options we offer include the following.

### Private, On-Site Learning

You'll receive expert instruction and tailored curriculum delivered to your facility or location of choice. Save time and money with the private, On-Site delivery method. Everything is supplied that you need for seamless On-Site training, including expert instructors, a tailored curriculum, and flexibility in scheduling. On-Site training allows you to:

- Save time & money—On-Site delivery typically costs 25% less than classroom
- Hold training sessions at your location for confidentiality and privacy
- Tailor training to align with your organization's culture and objectives
- Compress or extend the length of time required for learning

### Virtual Classroom e-Learning

When your team is geographically distributed and you have a limited travel budget, you need a flexible training option. Virtual Classroom e-Learning delivers the same content and labs as the classroom, with a live instructor, in real time, via the Internet. We currently offer more than 60 Virtual Classroom e-Learning courses.

### Public Classroom Learning

Expert instructors, hands-on labs, and superior content provide excellent, results-oriented classroom training. The 1,200 instructors are highly sought-after consultants who have worked with Fortune 500 companies and teach key concepts and practical skills that can be applied as soon as you or your employees return to work. We offer a comfortable, ready-to-learn atmosphere in more than 40 locations throughout North America and other locations throughout the world.

### Self-Paced e-Learning

The Self-Paced e-Learning format includes hundreds of CD titles that focus on both interactivity and expert instruction. This delivery method integrates the knowledge of subject matter experts with sophisticated development tools to create interactive, self-paced content that offers flexibility and savings. This award-winning Self-Paced e-Learning effectively incorporates the latest instructional design methodologies and mirrors our classroom content.

### Pre- and Post-Class Learning Support

For many of the certification training courses, we can offer online mentoring to students. Often held outside of class, these online sessions allow students more time interacting with a subject matter expert.
